Product Description

Coolingtype TEC Sapphire Contact Cooling Hair Removal Laser Machine 600W Laser Type Other

Product Description:

With its advanced laser technology, this Hair Removal Laser Machine is equipped with a powerful 600W laser type, providing optimal results for hair removal. The machine is also designed with a total power of 1200W, ensuring that it can handle even the most demanding hair removal sessions.

This Hair Removal Laser Machine is also equipped with several safety features to ensure a safe and comfortable experience. The Skin Contact Cooling feature ensures that the skin is protected from the heat generated by the laser, while the Automatic Power Cut-off feature ensures that the machine will shut off automatically if it detects any irregularities.

Using this Hair Removal Laser Machine is incredibly easy, thanks to its user-friendly design. Simply select the desired intensity level and begin the treatment. The machine also comes with a large treatment area, making it ideal for treating larger areas of the body.

The Hair Removal Laser Machine is perfect for those looking for a permanent hair removal solution. Say goodbye to waxing, shaving, and other temporary hair removal methods and enjoy smooth, hair-free skin with this Hair Removal Laser Machine.

755 nm for white skin
(fine, golden hair removal)

(brown hair removal)
1064 nm for black skin
(black hair removal)

Features:

Product Name: Hair Removal Laser Machine

Pulse Duration: 10-400 Ms

Cooling Type: TEC+Sapphire Contact Cooling

Energy Density: Up To 120 J/cm²

Power: 600W

Cooling Fan: 2pcs Fans

This advanced Hair Removal Laser Machine is equipped with a TEC+Sapphire Contact Cooling system that ensures a painless hair removal experience. With a pulse duration of 10-400 Ms and energy density of up to 120 J/cm², this machine delivers efficient and effective results. The 600W power and 2pcs fans cooling fan ensure optimal performance.

Technical Parameters:

Machine Power	1200W
Skin Types	I-VI
Pulse Duration	10-400 Ms
Display	15-inch Touch Screen

Machine App	Permanent Laser Hair Removal Machines
Laser Type	Other
Energy Density	Up To 120 J/cm2
Cooling Type	TEC+Sapphire Contact Cooling
Style	Stationary, Vertical
Safety Features	Skin Contact Cooling, Automatic Power Cut-off

This is a professional, permanent hair removal device. It is a stationary, vertical unwanted hair remover device with 1200W machine power and skin types ranging from I-VI. The pulse duration is between 10-400 Ms, and it has a 15-inch touch screen display. It uses other laser types and has energy density up to 120 J/cm2. The cooling type is TEC+Sapphire Contact Cooling, and it has safety features such as skin contact cooling and automatic power cut-off. The machine app is Permanent Laser Hair Removal Machines.

Applications:

The LZR TM-1 hair removal laser machine is suitable for all skin types, ranging from I-VI, making it a versatile unwanted hair remover device that can cater to a wider range of customers. Its laser type is other, which ensures it is effective and efficient in removing hair from any part of the body.

The LZR TM-1 hair removal laser machine features TEC+Sapphire Contact Cooling, which cools the skin and minimizes discomfort during the hair removal process. This cooling type makes it an ideal option for individuals with sensitive skin or those who experience pain during hair removal procedures.

The machine power of the LZR TM-1 hair removal laser machine is 1200W, ensuring that it is powerful enough to remove hair effectively and efficiently. Additionally, its pulse duration ranges from 10-400 Ms, which provides flexibility in customization of the hair removal procedure to cater to individual customer needs.

The LZR TM-1 hair removal laser machine is suitable for a variety of application occasions and scenarios. It can be used in spas, salons, and clinics to provide professional hair removal services to customers. Additionally, it can be used for personal use at home, allowing individuals to effectively and efficiently remove unwanted hair without having to leave the comfort of their own home.

Overall, the LZR TM-1 hair removal laser machine is a reliable, efficient, and effective hair removal device that can cater to a wide range of skin types and hair removal needs. Its versatility and ease of use make it an ideal option for both personal and professional use.
